## TOP GRADE PLANT-BASED CHINESE MEDICINE

Fully Tailored Plant-Based Prescription approx £12.00 per day for raw herbs or extracts.  
Pre-Blend Plant-Based Prescriptions £3-5 per day per formulation.

A simple way to imagine the effect of Chinese Medicine is to picture a see-saw. When you are perfectly healthy the pivot is perfectly centred.

As the external world impacts your life the pivot may move and the balance becomes affected leading to physical and emotional symptoms.

If left long enough these imbalances may cause the pivot to move further off centre leading to more dangerous and chronic issues which become harder to reverse with age.

Much of conventional medicine resolves symptoms by artificially correcting the imbalance. This may have an immediate impact but often does not address the main cause of the imbalance and may cause the body to become reliant on continuous pharmaceutical prescriptions to try to maintain balance.

Chinese Medicine adjusts the pivot to bring it back to centre so that you can regain balance and heal. The result is that multiple emotional, physical and mental conditions are healed with the same treatment. The process may take longer but is natural and usually long lasting.
